Tim Ellis, City Manager

July 12, 2015

To: Board of Commissioners, City Staff and Residents of Goodlettsville

The City of Goodlettsville began the practice of producing the City Manager’s Monthly Report in December 2011 to provide general and performance information to the Board of Commissioners and the public on City services and programs. The City utilizes performance data to identify efficiencies and potential inefficiencies for the purpose of improving services, responsible budgeting and enhancing transparency in local government. The information in this report is compiled internally by each department/division that comprises City Services. The information is then analyzed and organized for presentation by myself and the Public Information Officer.

I am proud of the City’s efforts toward becoming more transparent, performance driven and the direction in which our community is headed. City staff and I will continue to work diligently to increase efficiencies in City services and achieve the goals of our Board of Commissioners as we proudly serve the citizens of Goodlettsville.

I am pleased to present to you the June, 2015 City Manager’s Monthly Report. I hope that you continue to stay informed on City issues and progress.

Please feel free to contact me with any questions, comments and/or suggestions regarding this report.

Sincerely,

Tim Ellis, City Manager

Overall there has been a 24.55% decrease in the first half of 2015. Our UCR total for the year is a 24.18% decrease in UCR Crimes.

Our proactive efforts were excellent for the month of June. As a result our officers made 992 Traffic Stops and 7 Terry Stops. They made 99 Traffic Arrests and 26 DUI Arrests. From these Traffic Stops resulted 11 Felony charges, 112 Misdemeanor charges, and 8 warrants were served. They had 19 drug

## Fire Department

June 2015

### Summary of Month's Activities

**Fire Operations:** The department responded to 238 calls for service for the month of June.

#### Administration:

The final month of the fiscal year is always a busy time for administration. Considerable time is spent reviewing the budget and making final allocations. In addition, the end of year budget is compared against mid-year projections to determine the accuracy and usefulness of the projections.

The department purchased a new thermal imaging camera (TIC) for the firefighters. Thermal imaging is used to locate victims during search and rescue operations, locating fire and heat in and behind walls during fire investigations. These cameras are especially useful in determining overheated equipment such as ballast and HVAC units. The previous camera is old and outdated and considerably larger. The large size made it somewhat cumbersome. The older camera will be utilized as a back-up camera. Firefighters are scheduled to have training with the new TIC in July.

Several officers and firefighters continued training classes at the Tennessee State Fire Academy. (TFACA) Lieutenants Lassiter and Toll completed the officer I and II certification program. Firefighter Davidson completed the Driver operating course. The month of June was very busy with training activities.
